

Sewage Sludge Land Application Registration Form
MONROE TOWNSHIP, CLARION COUNTY, PENNSYLVANIA

(All terms used herein have the definitions provided in the Monroe Township Sewage Sludge Ordinance, Ordinance No. _____ of 2002, as amended.)

Name of Sewage Sludge Applicant: _____

Address: _____

Telephone Number: _____

Name of Landowner On Whose Land Sludge Is To Be Applied: _____

Address: _____

Telephone Number: _____

Location of Proposed Land Application: _____

Prior to the land application of each truckload of sewage sludge, the Sewage Sludge Applicant must do the following:

1. Provide Monroe Township with a copy of all DEP and other applicable state and federal permits pertaining to the land application.

2. Provide Monroe Township with written proof of the Class of sewage sludge to be land applied. If the sludge is Class A, provide Monroe Township with written proof of the Alternative in 25 Pa. Code § 271.932(a) under which the sludge qualifies as Class A. If the sludge is Class B, provide Monroe Township with written proof of the Alternative in 25 Pa. Code § 271.932(b) under which the sludge qualifies as Class B. For all Classes of sludge, provide Monroe Township with written proof of the Alternative in 25 Pa. Code § 933(b) under which the sludge purportedly satisfies DEP vector attraction requirements. This will identify the testing that Monroe Township must conduct on the sewage sludge and the requisite testing and collection fees below.

3. Arrange for and allow Monroe Township to collect the necessary sewage sludge samples from the truckload to be land applied to have a qualified laboratory test the sludge for pollutants, pathogens, and vector attractants regulated by DEP at 25 Pa. Code § 271.914 (pollutants), § 271.932 (pathogens), § 271.933 (vector attractants), and at all other applicable state and federal regulations, as amended.

4. Pay Monroe Township the testing and collections fees identified below and, when indicated, provide Monroe Township with the written proof requested below. Monroe Township determined these fees by requesting quotes from laboratories and estimating its costs to collect and transport sewage sludge samples. Monroe Township may alter these fees by ordinance as necessary to adjust for changes in its cost to collect, transport, and test sewage sludge samples.

Pollutants: For all classes of sewage sludge, the testing fee for pollutants under 25 Pa. Code § 271.914(a)(1) is _____ per truckload of sewage sludge to be land applied.

MONROE TOWNSHIP, CLARION COUNTY, PENNSYLVANIA

Pathogens: For Class B sludge under Alternative 1 of 25 Pa. Code § 271.932(b), the testing fee to test seven samples for fecal coliform is _____ per truckload of sewage sludge to be land applied.

For Class B sludge under Alternatives 2 and 3 of 25 Pa. Code § 271.932(b), the sewage sludge applicant shall submit written proof that the sludge to be land applied has been treated as required under the applicable Alternative.

Vector Attractants: For sewage sludge that purportedly satisfies vector attraction requirements under 25 Pa. Code § 271.933(b)(1), (2), or (3), the testing fee for mass of volatile solids is _____ per truckload of sewage sludge to be land applied.

For sewage sludge that purportedly satisfies vector attraction requirements under 25 Pa. Code § 271.933(b)(4), the testing fee for SOUR is _____ per truckload of sewage sludge to be land applied.

For sewage sludge that purportedly satisfies vector attraction requirements under 25 Pa. Code § 271.933(b)(5), (6), (7), (8), (9), or (10), the sewage sludge applicant shall submit written proof that the sludge to be land applied satisfies the requirements under the applicable Alternative.

Collection: For all classes of sewage sludge, the fee for collection and transportation of the sewage sludge samples for testing is _____ per truckload of sewage sludge to be land applied.

5. Store the sewage sludge pursuant to all applicable DEP, federal, and state regulations (including without limitation those at 25 Pa. Code §275.204 and 25 Pa. Code Chapter 285) until the Township notifies the sewage sludge applicant whether it may land apply the sewage sludge in Monroe Township.

If the land applicant does not receive permission to land apply the sewage sludge in Monroe Township, it shall follow all applicable state and federal regulations for handling or disposing of sewage sludge that violates laws or regulations concerning levels of pollutants, pathogens, or vector attractants.

If the land applicant receives notice that it is allowed to spread the sewage sludge in Monroe Township, it shall do so in compliance with all applicable federal, state, and local laws and regulations.
